HARDING PRESENTS SHIP PROBLEM TO CONGRESS, URGING HASTE IN ACTION

Declares Defeat of His Plan Less Disastrous to Nation Than Further Dilly-Dallying.

IN FIGHTING MOOD

Washington, D. C., Nov. 21.—President Harding brought his ship subsidy bill to congress in person today at 12:30 o'clock and in a prepared message, detailed to a hostile congress the shipping situation in the United States and prescribed what he believed to be the remedy. A full elucidation of the whole shipping business, which at present is costing the taxpayers of the country fifty million dollars a year was made.

President Harding's advocacy of the ship subsidy in the face of strong opposition in congress will furnish an acid test of his strength, both as a political and national leader.

The President was in fighting trim and delivered a fighting message to the congress. Declaring that no measure ever considered by a Chief Executive had met the opposition that the ship subsidy is meeting, he dared the administration foes, both within and without his own party to assume the responsibility for defeating it.

He mentioned only one other national problem in this message to a special session of congress. That was help for agriculture saving that on the merchant marine and on the prosperity of the country depended the national prosperity of America.

His advocacy of the ship subsidy came with striking emphasis after a "lean out review" of the entire shipping situation of the nation which he declares must be raised to a place of prominence in the maritime world. "Failure to take decisive action on the shipping problem will be far more disastrous than to do nothing as the responsibility will rest on the government for failing to recognize a necessity."

President Harding took occasion to review what critics have already said and in reply to the charge that the ship subsidy means the paying of money over to private interests he declared that his first thought was for the public treasury and that out of the public treasury we are now paying at the rate of fifty millions a year to operate government owned ships and that the cost of the ship subsidy would not equal half of that amount and from it would come prosperity for shipping and the sale of these government owned bottoms.

There was every indication that the President is so thoroughly convinced that the ship subsidy is a national necessity that he intends to use the big stick freely to compel congressmen to lay aside their prejudices and give the bill an honest consideration. All through the speech there was the threat of where the responsibility would lie in case of inaction.

The President reviewed the situation graphically stating that the U. S. Merchant Marine, built in wartime, cost over three billions of dollars and that when he took charge of the national administration was losing at the rate of fifty millions of dollars monthly but that this loss, by doing more business and affecting economies, had been turned down to four millions a month. That now the limit was reached and that the United States must be prepared to foot this monthly loss to keep these ships going or take another course which would put the bottoms into other hands. "It is not a question of adding new burdens to the public purse, it is now a question of cutting down the burden already borne," said Mr. Harding. "The administration would be neglectful of its duty if it did not bring the true situation to the American people and offer a measure of relief."

Mr. Harding urged the individual Congressmen to forget local politics for the present and rise to a loftier statesmanship destined to affect the number of people and added that a merchant marine would bring benefits to all, north and south, east and west.

KANSAS BEGINS TO OUST KU KLUX KLAN BY COURT ACTION

Topeka, Kansas, Nov. 21.—Legal ousting of the Ku Klux Klan from the state of Kansas will be taken up by the State Supreme Court today when an action will be started against that organization. The action will be on the grounds that the Ku Klux Klan, a Georgia corporation, is operating without a charter in the state of Kansas and the officers of the invisible empire will be named as defendants.

Daugherty Hearing Will Be Started Says Mr. Volstead

Washington, D. C., Nov. 21.—Hearings on the impeachment proceedings against Attorney General Harry M. Daugherty will probably get under way this week, announced Chairman Volstead. His announcement came closely on the heels of a declaration that Keller of Minnesota and Woodruff of Michigan intended to push the proceedings to a speedy conclusion and demanding that the Judiciary Committee of which Volstead is Chairman start the hearing without delay. Important new evidence has been uncovered by the American Federation of Labor in its attack on Daugherty, it was said here today after a meeting of the Executive Council at which plans are being made for the introduction of evidence at the hearing before the Judiciary Committee. What this evidence is would not be divulged but it was said that it would be a "bombshell."

AIRPLANE FROM NEW YORK TOSO, AMERICA REACHES THE COAST

Georgetown, British Guiana, Nov. 21.—The giant airplane "Sampaio Correia", flying from New York to Rio de Janeiro in charge of Lieut. Walter Hinton and an American crew reached the South American continent yesterday afternoon. The big plane had been tied up at Trinidad for a new propeller. The landing was made on the banks of the Essequibo River.

LIBERTY BONDS ARE SUBJECT TO STATE TAX SAY COURTS

Washington, D. C., Nov. 21.—The Supreme Court has handed down an opinion that Liberty Bonds, although free from federal taxes, can be taxed by legislative action, for state tax purposes. The decision affects millions of dollars in Liberty Bonds now held by national banks.

TURKEY FIGHTING FOR SOVEREIGNTY AT CHATEAU OUCHY

Lausanne, France, Nov. 21.—A struggle which will decide the position that Turkey is to occupy in the galaxy of nations began here today behind locked doors. Ostensibly a peace conference, there is every evidence that the dove of peace is absent. The meeting is taking place at the Chateau Ouchy. The Turk, a few months ago almost banished from Europe, will make a fight for national sovereignty and a place among the nations of the world.

MORGAN WELL AGAIN
London, England, Nov. 21.—J. P. Morgan who has been reported seriously ill appeared at his downtown offices today in the pink of health and reports of his illness are denied.

LOUISIANA WILL PROBE INTO ACTS OF KU KLUX KLAN

Washington, Nov. 20.—Assurances were given Governor Parker, of Louisiana, today by President Harding that whenever Federal interest were involved in the alleged activities of the Ku Klux Klan in that state the federal authorities were ready to extend full co-operation. This was in reply to a request by the governor for government help in shutting off from the organization in Louisiana the support and encouragement which he asserted it was receiving from the outside.

At the White House conference between President Harding and Mr. Parker, attended also by Attorney General Daugherty and the attorney general of Louisiana, A. C. Cooch, it was agreed that the state government would be fully able to take care of the situation. The governor called in a formal statement issued on leaving that "regardless of cost or consequences" a most thorough investigation of reported outrages would be made.

At the same time he vigorously denied that there was in Louisiana any such situation as that described in articles written by a staff correspondent of the Washington Post and published over the country. In a letter to the Post, which he made public, Mr. Parker said the statements in these articles that the "Klan had reduced the sovereign state of Louisiana to the vassalage of the invisible empire" was one of the "most amazing and inaccurate observations" he had ever known a newspaper man to make.

Announcing that he had been unable to discuss the subject on the floor of the House because of an adjournment of that body, Representative Aswell, of Louisiana, issued a statement tonight denying that there were conditions in that state such as described in the Post articles. He made public a telegram of inquiry sent to the sheriff and judges in the eight parishes of his district and their replies, each of which reported conditions tranquil.

"If the published accounts emanated from the governor of Louisiana or if he had advance knowledge of a connection with their publication," said Mr. Aswell's statement, "he presents a humiliating and pathetic spectacle as he plays cheap politics to gain notoriety."

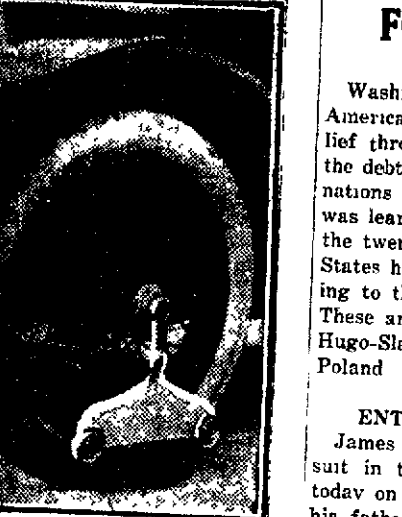

Both the White House and Governor Parker declined to make any statements in advance of the conference, but it was learned on reliable authority that the southern states believe the Ku Klux Klan has gained control of civil affairs in certain counties of the state and deserves the assistance of the federal government in combating what he regards as a menace to his commonwealth.

There were indications today that the federal government, alarmed at the strength revealed by the secret organization in the last election, is preparing to combat it.

FATALITY ON WHITE HORSE PIKE

Camden, N. J., Nov. 21.—John Hoskins, aged 32, of Haddonfield, H. J., was instantly killed and one man and two women with whom he was riding were seriously injured when Hoskins ran into an open excavation on the White Horse Pike today.

AGED PHILIPSBURG WOMAN DIES AFTER BEING HIT BY AUTO

Mrs. E. C. Howe Was Mother of First Child Born at Houtzdale and Was Widely Known.

ON WAY TO STORE

Mrs. E. C. Howe, one of Philipsburg's most highly respected residents, died at her home at 8:45 o'clock Monday morning as the result of being struck by an automobile Saturday evening while crossing the street on a shopping tour Saturday afternoon.

Mrs. Howe, whose maiden name was Annie Laughlin, was born in Kings county, Ireland, on April 10, 1846. She came to this country when about seven years of age. Her parents were William and Margaret Laughlin. The family lived at Bald Eagle. On Feb. 17, 1894, the deceased was united in marriage to Ellis C. Howe, of Philipsburg, the ceremony taking place at Tyrone. They went to house-keeping at once on Front street, opposite the Methodist church. Later they located at Brishin, and then in the summer of 1898 took up their residence at Houtzdale. Their baby born in Houtzdale. He was killed in a mine accident at Paradise No. 2 mine, near here, a number of years ago. The Howes family returned to Philipsburg and moved away several times before finally permanently locating here, which was in 1890. They had in the meantime lived at Frugality, New Washington and Houtzdale.

Six children were born to the couple: Loretta A., wife of John Kern, of Pittsburg; Mary M., wife of Frank Test, Philipsburg; William deceased; Francis P., at home; Miss Edna Ely, deceased, and Harry R., of Avalon. One brother, William Laughlin, lives at Elmore; one sister, Mrs. Eliza Henderson, is a resident of Ramsey, and another sister, Miss Nora Laughlin, is a resident of Philipsburg. Five brothers and sisters are deceased. There are twelve living grandchildren and four great-grandchildren.

The funeral will be held at 9 o'clock Thursday morning with services conducted by Rev. Stephen McGarvey in the Catholic church at Philipsburg. The body will be taken to Osceola Mills for burial.

Several important witnesses for the state are said by officers in close touch with the situation to have disappeared and a fear is expressed that they have slipped out of the state. State police and county authorities have been detailed to try to find them. The names of those who are said to have disappeared cannot be learned.

NEEDS OF SCHOOLS OF CLEARFIELD IS INTERESTING TOPIC

The meeting of the Clearfield Commercial Club at the Jordan Hotel last evening was one of the most interesting that has been held for some time. After being highly entertained by Miss Dunkle, one of the leading vocalists of State College, Pa., ex-President Sam Warner was introduced—if an introduction was necessary, and told in his own interesting way how he would conduct the Blacker floral plant and ended his talk with a very concrete example of the florists' slogan, "Say it with flowers" by presenting every member a bouquet present with a beautiful carnation. This idea of having some member who knows little about some other member's line of business or the conduct thereof has become a highly interesting part of the regular program of the Club.

Following "Sam's" talk, Prof. Geo. E. Zerfoss, superintendent of Clearfield schools, was introduced and gave his views on the future needs of the Clearfield schools.

Although handicapped by a heavy cold, Mr. Zerfoss very forcibly impressed on every person present the crying needs of the city for the better education of Clearfield boys and girls. Mr. Zerfoss also gave some statistics that showed that Clearfield has a wonderful school system as compared with many other cities in the state; but also showed that the "teacher load," i. e., the number of pupils per teacher, was entirely too high for efficient work.

Through reports which have been issued by state school journals, Mr. Zerfoss showed that over 50 per cent. of the boys and girls that started school in the first grades have been graduated from our high school thru the efficiency of the present system and made a very earnest plea that the good work go on to the point where a still greater percentage would be shown. This, he showed, (Continued On Page Two.)

REFUNDING PLANS NOT ACCEPTED BY FOREIGN NATIONS

Washington, D. C., Nov. 21.—America's chances of obtaining relief through refunding operations on the debt owed this country by foreign nations grows dimmer every day. It was learned today that only seven of the twenty nations owing the United States have made any overtures looking to the refunding of their debts. These are England, France, Belgium, Hugo-Slavia, Roumania, Italy and Poland.

MOTHER LOCKS TWO CHILDREN IN ROOM; BOTH DIE IN FIRE

Monongahela City, Pa., Nov. 21.—Two children burned to death yesterday in their home here while their mother was out shopping. The total, both boys, aged sixteen months and four years, were locked in the room during the absence of the mother and were unable to make their escape.

AUTO HEADLIGHTS REVEALED MURDER OF JERSEY COUPLE

Summersville, N. J., Nov. 21.—The state is rolling up a tremendous and imposing mass of evidence against the woman in gray and the male accomplice who is alleged to have been her companion on the night of the double killing of Rev. Edwin Hall and Mrs. Elmer Mills.

Resumption of the Grand Jury work today was spurred by the bringing to light of a new witness in the person of George Temple, a hog farmer, who is said to be able to identify the slayers by the glare of the headlights on a car he was driving which threw into bold relief the scene of the tragedy and enabled Mrs. James Gibson to see what she claims she saw.

The evidence thus far has been simply for the purpose of laying the ground work to satisfy the technicalities of the law and it is believed that the Grand Jury will adjourn from Wednesday until Monday at which time the evidence of Mrs. Gibson and other material witnesses will be offered.

Several important witnesses for the state are said by officers in close touch with the situation to have disappeared and a fear is expressed that they have slipped out of the state. State police and county authorities have been detailed to try to find them. The names of those who are said to have disappeared cannot be learned.

SPANGLER INQUEST WILL BEGIN TODAY; CORONER PRESENT

Barnesboro, Pa., Nov. 21.—The inquest into the death of seventy-seven miners in the Spangler explosion at the Rellly Mine will get under way today with the arrival of Coroner Swab, of Cambria County. More than fifty witnesses are to testify, among them all the rescued miners who are able to appear.

Following "Sam's" talk, Prof. Geo. E. Zerfoss, superintendent of Clearfield schools, was introduced and gave his views on the future needs of the Clearfield schools.

COUNCIL WASHES ITS HANDS OF ALL RESPONSIBILITY IN CONNECTION WITH MAHAFFEY ACCIDENT ON SECOND ST.

IRISH BAND WILL VISIT HERE NEXT FRIDAY EVENING

The first tour of the United States of the internationally famous Irish Regiment Band, aptly described as "a traveling festival of Irish music," will include Clearfield in its itinerary, appearing here at the Driggs Theater on Friday, November 24th.

This celebrated band, the only musical organization exclusively Celtic in the United States, will have besides a complement of seventy-five members of the band, a special group of soloists, which will include an Irish singer, an Irish folk-dancer and a piper, the latter the famous Pipe-major John Trenholme.

The tour was conceived by Roger de Bruyn, of New York, manager of noted musical artists and organizations, and the engagement here will establish a precedent for the band, which never before has officially visited this country.

The band is one of the best known military-musical organizations of its kind, and has been frequently heard in Canada under the baton of Lieut. J. Andrew Wiggins. Most of the musicians are veterans of the war and while in England in 1918 gave London concert which attracted much attention. The band has the indorsement of the Irish League of America, of the Knights of Columbus, the Friendly Sons of St. Patrick and other societies with large Irish memberships.

The response of the Irish organizations is indicative of a strong revival of interest in Irish music, similar to the movement which has been manifest in Ireland for some years past. The band will carry with it three soloists—a singer, a piper and a dancer—all specialists in Irish folk music and dancing, the oldest probably of any purely national music in all Europe. The tour will provide an opportunity for American audiences to hear a great number of folk tunes which have seldom, if ever, been played or sung here before. Pipe-Major John Trenholme, who is an expert performer on the Irish bagpipes, is to give forth tunes which have never been written down because of "local peculiarities, which cannot be recorded by existing methods of notation. These tunes the traditional Irish fiddlers and pipers have preserved since the earliest historic times in Ireland, handing them down from generation to generation.

The question of adequate street lighting at this point must be taken up and chairman Ellis of the Public Property Committee suggested that pedestal lights be placed at each of the four corners the angle as had been proposed by the property owners at Third and Market. Under the plan proposed when the street was being repaved was for the property owners benefited to provide the installation and the Borough to supply the light. The property owners got "cold feet" and failed to go through with it, but Chairman Ellis was asked to take the matter up with the property owners at the "disposal" and ask them to go along on a similar proposition. This failing the old are light will be restored.

Request was made for lights at 11th and 12th streets and Woodland Road and for a guard rail at Sanitarv Run. The requests were referred to Property Committee.

HENRY'S HENRY AND WALT'S HENRY TRUCK AMBLE INTO COURT

W. Elbridge Brown, Esq., entered suit in Prothonotary Balastris' office today on behalf of Henry F. Van Valzah, who seeks to recover \$40.72 from W. H. Fargo, for damages sustained by Henry's Henry when it dispossessed the right of way with Walt's Henry at the Second street bridge on September 26, 1922.

In the statement filed Henry says his Henry which is a touring car, was ambuling peacefully along under the direction of Bellman Hallett, when up came Walt's Henry, which is a truck. Because Walt's Henry was bigger and stronger than Henry's Henry it rolled along on the wrong side of the road, Henry says, and when Henry's Henry meekly attempted to get by Walt's Henry gleefully bumped right into Henry's Henry and the resultant crash caused Henry to expend \$40.72 for repairs to his Henry before it could be induced to venture out in public again.

FLAG POLE REMOVED

The regular semi-monthly meeting of Borough Council held at the Council chamber last evening was attended by but seven of the twenty members and but little business was transacted. President Bramer presided.

The matter of the assessment of Orr Run sanitary sewer was called to the attention of Council by Engineer Kess and same was discussed by Solicitor Urey, who urged that some consideration be given the request of the property owners for hearing and some relief before the assessment was finally made. The question was referred to the Sewer Committee for report at next meeting with recommendation.

Wash Hands of Auto Accident
Chairman Beahan of Police Committee stated that his committee had met the Chief of Police relative to having an information made to the Mahaffey case but the committee was unanimous in deciding that action in this case was not for Council but for the County authorities. When the facts ascertained by the Committee of Police had been laid. After some discussion the report of the committee was unanimously adopted and the incident closed so far as the borough authorities are concerned.

Will Remove Flag Pole
The big steel flag pole at the Court house square was the subject of considerable discussion. Many complaints have been received by Council concerning same and asking that it be removed. Council finally decided by unanimous vote to have the pole removed and a multi-story traffic light installed similar to that at the corner of Third and Market streets.

The question of adequate street lighting at this point must be taken up and chairman Ellis of the Public Property Committee suggested that pedestal lights be placed at each of the four corners the angle as had been proposed by the property owners at Third and Market. Under the plan proposed when the street was being repaved was for the property owners benefited to provide the installation and the Borough to supply the light. ODDS AND ENDS AND THINGS

By J. D. C.

"Large data from little acorns grow," or the interesting tale of how a resourceful Indiana County backwoods lumberman, solved the problem that made possible the turbine engine of today:

The Locomotive, a magazine devoted to power plant production, published by the Hartford Steam Boiler Inspection and Insurance Co., of Hartford, Conn., in its October issue, publishes an article on the early development of the water turbine, in which it pays a high tribute to John M. McCormick, of near Georgeville, Indiana county. The article says in part:

Probably the greatest achievement of any one man in advancing the development of the hydraulic turbine was that of John B. McCormick, of Indiana county, Pennsylvania. He had a sawmill on a small stream, and could run only a pondful at a time. The wheel was too large and used water so rapidly that it drew down the pond quickly and so curtailed operations. As in many other old sawmill wheels there was no satisfactory way of reducing the quantity of water used. Like most early turbines and those of the present day as well, the water passages through the runners or buckets, as they are called, were narrower at the outlet than at the inlet to the wheel. McCormick conceived the idea that by still further extending the buckets he would make the outlets still narrower, thus choking the discharge, reducing the quantity of water used and conserving the pondage. To accomplish this he riveted sheet iron extensions on to the outlets of the buckets, keeping the same form as the original passages, but making them longer, narrower and more curved. To his great surprise and gratification he found that not only was quantity of water used reduced, but that in spite of using less, the power of the wheel was considerably increased. This led him to further experiments.

About 1870 McCormick found that by extending the bucket vanes of an inward flow turbine downward and outward, making them ladle or spoon shaped, he was able greatly to increase the outlet openings of a turbine of a given diameter. At the same time the length or depth of the inlet openings was proportionately increased, thus greatly increasing the capacity without increasing the diameter of the runner. Since the speed of the turbine decreases as the diameter increases, he thus produced a turbine of much greater capacity without reducing the speed. It was also found that the use of a curved vane providing for downward and outward flow, as well as inward flow through the runner, increased the efficiency since the water left the wheel in a direction opposite to that of the motion of the runner and so dropped away from the runner with little absolute velocity.

Not being able to analyze his intricate problem mathematically McCormick depended upon his aptitude for mechanics, his keen observation and a sense of the action of the water in passing through the wheel. He worked on his wooden patterns with his own hands, making them express the results of his latest observation on trials of his wheels at the testing flume in Holyoke, or their performance in service. By trial and modification he steadily advanced the efficiency of his turbines. His work was almost revolutionary. He laid the foundation for the great advances of recent years.

COMMUNITY SERVICE DRAMATIC INSTITUTE

The next meeting of the Community Service dramatic institute will be held at the Clearfield High School auditorium Thursday evening. At this time Mrs. Hanley will take up the subject of "stage lighting," which will no doubt prove highly interesting to the class.

The Third Ward children rehearsed their play at the High School auditorium this afternoon at 4 o'clock.

BIRTHDAY PARTY

The home of Mr. and Mrs. James Leasure of 307 Turnpike avenue, was the scene of a very happy gathering yesterday, when about fifty relatives and friends dropped in to help Miss Eliza Fletcher celebrate her 87th birthday. Miss Fletcher was born in Bedford county and for many years has made her home with Mr. and Mrs. Leasure, coming with them when they moved here from Bedford county. Miss Fletcher is 87 years young, she being very active in the home. A sumptuous dinner was served from 12:30 to 2:30. The table was literally groaning under its burden of good things but was greatly relieved in a very short time. All by their prolonged stay at the table, pronounced it a wonderful feast, except one Mann who seemingly hadn't much of an appetite, although he had fairly well.

Truly it was great to be there.

Ship Subsidy. Here is a name that will be in the headlines of all newspapers for the next six months and without making any attempt to understand what it means most of us are going to line up for or against it, according to the newspapers we read. While Democratic papers, because it is an administration measure, pan the idea, branding it nothing less than a handing over to private ship companies of millions of dollars, and other newspapers leaning to stand-pat Republicanism blindly support it because it is a Harding measure, a very few have gone into the proposition so as to understand it.

Here, according to Edward C. Lawry, an able writer of the Public Ledger, is the motive impelling President Harding to put forward the subsidy plan. It is a commanding argument, to say the least:

"The United States owns 1500 ships. Of these, 1100 are rotting in idleness and 400 are being operated by the Shipping Board at a present annual loss of about \$50,000,000. That is what the ships are now costing the taxpayers. This sum may be reduced. The estimated first-year cost of the subsidy will be about \$15,000,000, and it will run up to about \$30,000,000 a year if the proposal is a complete success. If the subsidy is a success, it will increase the value and sale price of the ships which the government will turn over to private shipping firms.

"Even if the government, as a national policy, does not care to foster and stimulate a merchant marine, it can, as a cold-blooded, practical business proposition, liquidate and get out of the shipping business more cheaply and more economically by this subsidy plan than in any other way.

"There in barest, skeleton outline is the situation as Mr. Harding has been brought to see it. That is the proposal that he must 'sell' to Congress and the country. The government wants to get out of the shipping business and save as much as possible of the present loss of the fifty millions a year. Shall we simply drop the whole thing and sell out for fifteen cents on the dollar or shall we try this subsidy plan? Is there any other alternative?

"Mr. Harding puts the question to Congress and the country. It is for us to decide. Mr. Harding says the situation will not wait. The government cannot build new ships and those in use are deteriorating. Every year one huge investment decreases in value and makes it increasingly difficult for the government to get out on any terms. Our plight has been compared to that of a dealer in automobiles with nothing to sell but 1918 models.

"The question to be brushed out is whether we want a merchant marine on any terms. It is put to the country as a business proposition and not as a matter of national political policy. What is sought now is national discussion prior to Congressional decision. Mr. Harding will open the debate when he meets Congress."

Professor Commons of somewhere in Wisconsin is said to have been given the job by Senator LaFollette, leader of the independent wing of the Wisconsin legislature, of drawing up an unemployment insurance act which will be passed at the next session in that state. The purpose and intent is to administer it in much the same fashion as compensation insurance in this state, by a levy on the employers of the state in annual premiums. Accident insurance is not a hardship. The cost is divided and the greatest losses are recorded when employment is at its peak and those who pay the premiums are best able to meet their payments.

How foolish it is to apply an academic theory to unemployment. Unemployment insurance would hit hardest when employers have no employment to offer and are doing no business. Many a small employer would be driven to the wall by such a piece of legislation. And every dollar paid out in unemployment insurance premiums would in turn be added to the product to be sold and extracted from the pocket of the recipient. Unemployment insurance would be a grand thing, so would an unlimited supply of paper currency, until the bubble would burst.

Yesterday, Sam Rich, about whom we know nothing except that he signs himself King Kleagle of the Pennsylvania Ku Klux Klan, addressed The Progress and, of course, all other newspapers asking for publicity. Mr. Rich's organization has been getting a fairly good lot of publicity lately, but not of a favorable variety, and to change this he has employed

an experienced newspaper man who will be expected to dress up the Klan news in a tasty column.

The Ku Klux Klan, whether it be in Pennsylvania or in some other state, must put itself of certain features before it will merit that support and consideration which Mr. Rich craves. Preaching Americanism of a virile brand it begins its work by what appears to us to be an un-American method; that of masking its members. There is no question that many of the acts charged to the Klan have been committed by mobs disguised as Klansmen but the Klan itself is responsible for laying itself open to suspicion.

To begin, the Pennsylvania Klan must disavow those hatreds with which it is generally given credit, namely, persecution of negroes, Catholics and Jews.

This is America, the haven and home of all freedom-loving peoples, and the true American will uphold the rights of any and all creeds, races, sects and colors.

The Klan must win commendation, not force it under cover of darkness and the lash in the hands of a masked night rider.

Tomorrow The Progress expects to publish the complete election returns for the whole county by districts. It makes very interesting reading. It shows where there were axes to grind and saws to sharpen. Political elections are peculiar institutions. There is still too much control by the little district leader who has a vast pocketful of votes to deliver. Only one thing will overcome this and that is a larger percentage of the citizens voting. Make up your mind to vote next time.

CIVIL WAR VETERAN ANSWERS LAST ROLL CALL

James Starn, a respected resident of the Third Ward and veteran of the civil war, passed away at his home on West Third Avenue about 8:30 o'clock Sunday morning, November 19th, after a protracted illness resulting from a complication of diseases, in the 77th year of his age.

The deceased was born at Lock Haven, Pa., Feb. 26th, 1846. On February 20th, 1864 he enlisted in Co. E, of the Seventh Pennsylvania Vol. Cavalry, and served until the close of the war. He participated in many skirmishes his regiment fighting in Williams raid from Eastport, Miss., to Macon, Ga.

James Starn was an honorable, upright, patriotic citizen, who enjoyed a wide acquaintance throughout this section and was generally respected.

In 1869 he was united in marriage with Margaret J. Price at Kyrbarns and about all of their married life has been spent in Clearfield county. Eight children were born to them, one son dying in infancy, and one daughter, Rosie Mays, wife of George

Smear, also preceded her father to the Great Beyond. The sorrowing widow and these children survive. Orin P. and Blanche, wife of Robert McBlain, Clearfield; Pearl wife of A. H. Good, Altoona; Georgia Fern, wife of J. T. Good, Altoona; Cora Bell, wife of Russell Ogden, of Buffalo, New York.

The funeral will be held from the Starn home tomorrow afternoon at 2:30 o'clock, Rev. Armstrong of the West Side Methodist church officiating. Interment will be made in Hillcrest cemetery.

ANCIENT HUPP ON EXHIBITION ON THE STREETS OF THIS CITY

One of the most interesting cars that is now seen on the streets of Clearfield is this ancient Hupmobile. Away back in 1908 the Hupp Motor Corporation started to build automobiles and this model "20" was the first produced. This particular car has been in constant use for over twelve years. The average man naturally takes the present development of automobiles as a matter of course.

Don't stop to think of all the thought and care which has been necessary in bringing automobiles to their present high standard. Such things as electric headlights, self starters, wind shields and doors were absolutely unknown not very long ago. The motorist of today finds his car fully equipped, from a down to the little luxury of cigar lighters and such incidentals. He drives thousands of miles winter and summer and is independent of train schedules. In the old days his ambition was to drive 20 or 30 miles with some assur-

BEAUTIFUL CARVING SETS

We have some beautiful Carving Sets for you to use when you sit down to carve that bird on Thanksgiving. We have them in a variety of styles and we want you to come in and look at them. They are made in such a way that the handles fit the hand and the blades are of highly tempered steel that will hold an edge. Then, we have steels included so that if you run into a bone and turn the edge while you're carving, you can put an edge right on.

They're priced very moderately, too.

Joint Recital By HELEN DAVIS and VICTOR YOUNG

This is a golden opportunity for Clearfield to hear the famous mezzo-soprano and the popular composer-pianist.

The appearance of these favorite artists here makes it possible to perform an interesting musical experiment. In some of the numbers, they will compare their art with its RE-CREATION by Mr. Edison's new phonograph.

For Acidity or Bile

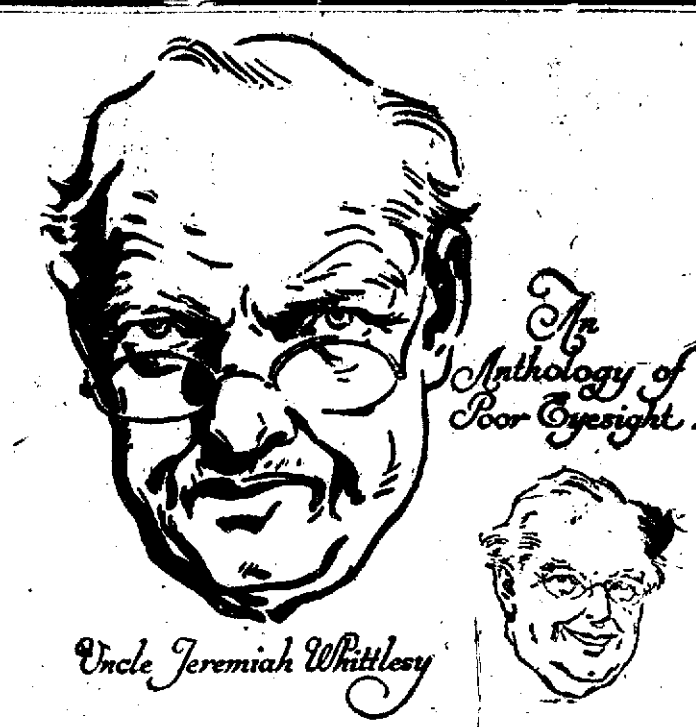

When your stomach is upset

Take

Beecham's

Pills 10c—12 pills
25c—40 pills
50c—80 pills

Beecham's Pills act as a splendid tonic to the digestive organs. They remove acidity and fermentation and excess of bile from the stomach and bowels and promote the secretion of the gastric juices. In thus correcting morbid conditions and stimulating the digestive processes Beecham's Pills naturally have an excellent effect upon the general health. If you have lost your appetite or are suffering from nausea, sick headache, constipation, or giddiness

Poor old Uncle Jeremiah, he certainly had his share of eyeglass troubles. Rather early in life his eyesight showed signs of failing. From awkwardly peering over reading glasses he took to fumbling with two pairs, and from two pairs he changed to ordinary bifocals with the conspicuous lines and humps across their lens surfaces. At each change Uncle became more discouraged.

One day somebody told him about Kryptok Glasses. Perhaps he doesn't enjoy life now!

MAN STRUCK BY AUTOMOBILE
DIED EARLY THIS MORNING

Alexander Beer, the man who was struck by an automobile Sunday evening while walking along the road on South Brady street, died this morning at 2 o'clock at the DuBois hospital.

No trace has been found as to the identity of the driver of the car that struck Mr. Beer. Steps are being taken to organize a systematic search for this individual, but owing to the fact that practically all that is known is that he drove a Ford roadster, it may be impossible to secure any trace of him.

May Finish Sabula Road
BY EVENING

The prospects for finishing the improved road between Narrows Creek and Sabula are very promising at the present time, and if the weather is at all suitable today, the two stretches will be connected by this evening.

There remain a total of 500 feet of road to be finished and Matthews Brothers, who have the concrete, are confident that this stretch can be poured by tonight or by Wednesday noon at the latest. Of course this is contingent on good weather, but regardless of whether or not it is the best weather possible every effort will be made to get the work finished this fall.

Many intelligent mothers overlook these few simple facts about food—

EVERY mother interested in her children's welfare meets a problem in the proper feeding of her boys and girls.

Parents often do not realize the evil effects of mal-nutrition; and that care in the selection of food will avoid a large percentage of children's ills.

One of the best of all foods for providing proper nourishment for growing boys and girls is Grape-Nuts—made of whole wheat flour and malted barley, and scientifically baked for twenty hours.

This long baking brings out a delicious flavor, makes the food easy to digest—without fermentation. Grape-Nuts with milk or cream is a complete food.

Here is a suggestion for better health: Serve Grape-Nuts as often as the folks wish it.

METHODIST REVIVAL MEETING

Is on at Trinity church. Last night's meeting began, as advertised in the Progress, with a stirring song service, led by Prof. Jones, who has already made many friends both in and out of the church. It is conceded that he knows what to do and how to get the people to aid him in doing it. He leads to singing and simply makes you sing; he has the points in directing the service. Then he himself can sing, and he did it finely in the solo of last night. Folks are coming to hear him, and that is what is encouraging.

The sermon was an exposition of Hebrews 2:3, "But we see Jesus who was made for a little (time) lower than the angels," etc. and then came the altar service, with exhortation and praying, the people responding nicely. It is evident that the spirit of revival is among Trinity people, that are attending the meetings. Rev. L. S. Snell, of the Baptist church participated in the service, pronouncing the benediction.

Tonight, another service of song, which is strongly planned and will be carefully worked out. Then Brother John Buchanan will direct a laymen's period. This is an innovation. The public is invited. Let the people of Clearfield turn out to share in these meetings, contributing their part in prayer and faith and taking away their own blessing. Go to Trinity church, South Second street.

RESPECTED KARTHAUS CITIZEN DIES

A host of friends attended the funeral services on Sunday the 19th inst. in the Lutheran church, Oak Hill, Karthaus township to pay their last tributes of respect to the late Huston Heichel, who departed this life on the 16th. His remains were laid to rest in the cemetery adjoining the church. He was born in Sachsen-Meiningen, Germany, on Jan. 4th, 1831. He arrived at the age of 91 years, 10 months, 12 days.

When a young man he came to this country and enlisted in the Civil War and fought in many battles. When discharged after serving throughout the entire war, he came home and married Miss Caroline Schaffer. To this happy union eight children were born, three preceded him to glory.

His widow, five children, twenty-nine grand children and one great grand child survive the loss of a loving husband and father.

He was a good and obliging neighbor, highly respected and honored by all who knew him.

He was a charter member of the local Lutheran church. The services were conducted by his former pastor, Rev. Franklin Gilbert now of Crapo, Dorchester Co., Md.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place. Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 16c and 50c.

NEWS OF OUR NEIGHBORS

CURWENSVILLE

John Patton and wife, of Westgrove, arrived in Curwensville yesterday and will be guests in the home of Mr. and Mrs. C. S. Russell for a few days.

Mr. and Mrs. Harvey P. Fullerton are well pleased over the advent of a son which arrived at their home on Bloomington avenue last Friday morning.

Messrs. Leib, Hipps, Olson and Norris motored to Grove City last Friday in order to witness a football game on Saturday.

Mrs. Joseph P. Robinson and daughter Miss Ruth, who spent several weeks in Pittsburgh at the home of William Robinson, have returned to their Curwensville home for the winter.

Illini tribe of Red Men have sent out cards announcing the fact that it will proceed to rededicate their new home in the Fullerton block Wednesday evening. Every member of that organization is asked to be present on this occasion as there will be some big doing; and before the lodge members will be allowed to depart for their various wigwams, refreshments will be served from a menu pleasing to the appetite.

The Progress representative was in receipt of a letter yesterday in which complaint was made in allowing the streets to remain in such a filthy condition at this season of the year. Other complaints were also specified, but as the writer neglected to sign his or her name we refrain from publishing the letter.

There has been considerable discussion within the few weeks past as to whether borough council had the lawful right within themselves to appoint a man to fill a vacancy on the board. The writer has gone to the trouble to look the matter up, and finds that the law in borough code of law passed in the year 1915, empowers a board of councilmen to appoint to fill a vacancy made by resignation or death of a former member, his term of service to continue until the following election. Therefore the Curwensville board of councilmen were perfectly within the law when at their regular meeting Mr. Edwards was elected to fill the post made vacant by the resignation of Jos. P. Fullerton, and who will take the oath of office at the meeting of the first Monday of December.

Mrs. Dean Rankin and daughter and Mrs. John Dale went out to Purchase Line, Indiana county, Sunday to attend the funeral of Mrs. William Rankin.

A small child of Mr. and Mrs. J. O. Conrad was taken to the Clearfield hospital last Saturday for medical treatment.

The big Red Cross drive on Sunday for membership was successful to a degree, many families responding to the appeal. Yet, we are sorry to state, not as many members were secured as was anticipated by those who had the matter in hand. Our

Take Salts to Flush Kidneys

Get less meat if you feel Back-
ache or have Bladder
trouble.

Too much meat may form uric acid, which excites and overworks the kidneys in their efforts to filter it from the system. By eating less meat the kidneys are relieved, the bowels, removing all the acids, waste and poisons, else they may feel a dull misery in the kidney region, sharp pains in the back or side, headache, dizziness, the stomach, tongue is coated, and when the weather is bad they have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging us to get up two or three times during the night.

To help neutralize these irritating acids and flush off the body's uric waste get about four ounces of Jad Salts from any grocery; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then not find and bladder troubles disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithium and has been used for generations to help clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia water drink which will help men and women stay new and the best to help prevent arthritis and bladder disorders.

reason can be advanced for this is that a goodly number of the population was out of town, the day being a fairly good one for automobiling. But the end is not yet, as we are informed that this matter will be taken up again shortly and another effort made to increase the membership roll to the one thousand mark. If one out of every three residents of this town would subscribe for a card the roll membership would be easily obtained. The sum of \$1.00 is not a great amount for any one to contribute, yet that same dollar might be the means of helping some worthy person in his or her hour of need.

The card party held by the ladies of St. Timothy Catholic church at the Park Hotel last evening was very well patronized, and the receipts therefrom will add greatly to the exchequer of the fund for church improvements. All who were present pronounced themselves well pleased with the entertainment, as well as the delicious refreshments served to them.

The schoolma'ams and school paper as well returned from their mountain outing on Sunday afternoon, having enjoyed the time out at Greenwood to the full extent, as only a happy, merry party can. Lots to eat, lots of fun and a whole mountain of pure joy to draw from, ought to put extra pep in the school work for another week at least.

The new concrete road built this summer from the Park House through the river bridge at Irvin Park was thoroughly tested out as to its efficiency yesterday when heavy trucks added with coal moved to and from the route. A week or two of that sort of heavy traffic will surely at the question as to whether it will stand up under it or not.

BABY'S COACH

The best coach for your baby is one that is at least two feet high. It should have room enough for your baby with the necessary clothing, pillows and covers and a top that can be easily adjusted so that he is well protected from the wind and sun.

Have strong, well balanced springs that stand squarely on four wheels. If your baby sits up, it is well to have a safety strap to fasten about his waist in addition to the ordinary carriage strap.

Carriage outings sometimes are

babby's only possible means of getting fresh air, but rather than send him out with another child or some incompetent person, give him his airing in the yard or on the porch where you yourself can watch him.

STATE NURSERY TO BE STARTED OVER AT ROCKVIEW PEN

Harrisburg, Pa., Nov. 20. (U. P.)—Millions of trees to be planted in all parts of the State will be grown by convicts at the Rockview Penitentiary, it was announced at the Department of Forestry today. The Department has made arrangements with the prison officials for the establishment of a nursery at the institution.

HARDING PRESENTS SHIP PROBLEM TO CONGRESS, URGING HASTE IN ACTION

Declares Defeat of His
Plan Less Disastrous to
Nation Than Further
Dilly-Dallying.

IN FIGHTING MOOD

Washington, D. C., Nov. 21.—President Harding brought his ship subsidy bill to congress in person today at 12:30 o'clock and in a prepared message, detailed to a hostile congress the shipping situation in the United States and prescribed what he believed to be the remedy. A full elucidation of the whole shipping business, which at present is costing the taxpayers of the country fifty million dollars a year was made.

President Harding's advocacy of the ship subsidy in the face of strong opposition in congress will furnish an acid test of his strength, both as a political and national leader.

The President was in fighting trim and delivered a fighting message to the congress. Declaring that no measure ever considered by a Chief Executive had met the opposition that the ship subsidy is meeting, he dared the administration foes, both within and without his own party to assume the responsibility for defeating it.

He mentioned only one other national problem in this message to a special session of congress. That was help for agriculture saving that on the merchant marine and on the prosperity of the country depended the national prosperity of America.

His advocacy of the ship subsidy came with striking emphasis after a "lean out review" of the entire shipping situation of the nation which he declares must be raised to a place of prominence in the maritime world. "Failure to take decisive action on the ship subsidy problem will be far more disastrous than to do nothing as the responsibility will rest on the government for failing to recognize a necessity."

President Harding took occasion to review what critics have already said and in reply to the charge that the ship subsidy means the paying of money over to private interests he declared that his first thought was for the public treasury and that out of the public treasury we are now paying at the rate of fifty millions a year to operate government owned ships and that the cost of the ship subsidy would not equal half of that amount and from it would come prosperity for shipping and the sale of these government owned bottoms.

There was every indication that the President is so thoroughly convinced that the ship subsidy is a national necessity that he intends to use the big stick freely to compel congressmen to lay aside their prejudices and give the bill an honest consideration. All through the speech there was the threat of where the responsibility would lie in case of inaction.

The President reviewed the situation graphically stating that the U. S. Merchant Marine, built in wartime, cost over three billions of dollars and that when he took charge of the national administration was losing at the rate of fifty millions of dollars monthly but that this loss, by doing more business and affecting economies, had been turned down to four millions a month. That now the limit was reached and that the United States must be prepared to foot this monthly loss to keep these ships going or take another course which would put the bottoms into other hands. "It is not a question of adding new burdens to the public purse, it is now a question of cutting down the burden already borne," said Mr. Harding. "The administration would be neglectful of its duty if it did not bring the true situation to the American people and offer a measure of relief."

Mr. Harding urged the individual Congressmen to forget local politics for the present and rise to a loftier statesmanship destined to affect the number of people and added that a merchant marine would bring benefits to all, north and south, east and west.

Mrs. John Luford of Boardman, spending the week with her father, J. O. Smith.

KANSAS BEGINS TO OUST KU KLUX KLAN BY COURT ACTION

Topeka, Kansas, Nov. 21.—Legal ousting of the Ku Klux Klan from the state of Kansas will be taken up by the State Supreme Court today when an action will be started against that organization. The action will be on the grounds that the Ku Klux Klan, a Georgia corporation, is operating without a charter in the state of Kansas and the officers of the invisible empire will be named as defendants.

Daugherty Hearing Will Be Started Says Mr. Volstead

Washington, D. C., Nov. 21.—Hearings on the impeachment proceedings against Attorney General Harry M. Daugherty will probably get under way this week, announced Chairman Volstead. His announcement came closely on the heels of a declaration that Keller of Minnesota and Woodruff of Michigan intended to push the proceedings to a speedy conclusion and demanding that the Judiciary Committee of which Volstead is Chairman start the hearing without delay. Important new evidence has been uncovered by the American Federation of Labor in its attack on Daugherty, it was said here today after a meeting of the Executive Council at which plans are being made for the introduction of evidence at the hearing before the Judiciary Committee. What this evidence is would not be divulged but it was said that it would be a "bombshell."

AIRPLANE FROM NEW YORK TO SO. AMERICA REACHES THE COAST

Georgetown, British Guiana, Nov. 21.—The giant airplane "Sampaico Correia", flying from New York to Rio de Janeiro in charge of Lieut. Walter Hinton and an American crew reached the South American continent yesterday afternoon. The big plane had been tied up at Trinidad for a new propeller. The landing was made on the banks of the Essequibo River.

LIBERTY BONDS ARE SUBJECT TO STATE TAX SAY COURTS

Washington, D. C., Nov. 21.—The Supreme Court has handed down an opinion that Liberty Bonds, although free from federal taxes, can be taxed by legislative action, for state tax purposes. The decision affects millions of dollars in Liberty Bonds now held by national banks.

TURKEY FIGHTING FOR SOVEREIGNTY AT CHATEAU OUCHY

Lausanne, France, Nov. 21.—A struggle which will decide the position that Turkey is to occupy in the galaxy of nations began here today behind locked doors. Ostensibly a peace conference, there is every evidence that the dove of peace is absent. The meeting is taking place at the Chateau Ouchy. The Turk, a few months ago almost banished from Europe, will make a fight for national sovereignty and a place among the nations of the world.

MORGAN WELL AGAIN

London, England, Nov. 21.—J. P. Morgan who has been reported seriously ill appeared at his downtown offices today in the pink of health and reports of his illness are denied.

LOUISIANA WILL PROBE INTO ACTS OF KU KLUX KLAN

Washington, Nov. 20.—Assurances were given Governor Parker, of Louisiana, today by President Harding that whenever Federal interest were involved in the alleged activities of the Ku Klux Klan in that state the federal authorities were ready to extend full co-operation. This was in reply to a request by the governor for government help in shutting off from the organization in Louisiana the support and encouragement which he asserted it was receiving from the outside.

At the White House conference between President Harding and Mr. Parker, attended also by Attorney General Daugherty and the attorney general of Louisiana, A. C. Cooch, it was agreed that the state government would be fully able to take care of the situation. The governor called in a formal statement issued on leaving that "regardless of cost or consequences" a most thorough investigation of reported outrages would be made.

At the same time he vigorously denied that there was in Louisiana any such situation as that described in articles written by a staff correspondent of the Washington Post and published over the country. In a letter to the Post, which he made public, Mr. Parker said the statements in these articles that the "Klan had reduced the sovereign state of Louisiana to the vassalage of the invisible empire" was one of the "most amazing inaccurate observations" he had ever known a newspaper man to make.

Announcing that he had been unable to discuss the subject on the floor of the House because of an adjournment of that body, Representative Aswell, of Louisiana, issued a statement tonight denying that there were conditions in that state such as described in the Post articles. He made public a telegram of inquiry sent to the sheriff and judges in the eight parishes of his district and their replies, each of which reported conditions tranquil.

"If the published accounts emanated from the governor of Louisiana or if he had advance knowledge of a connection with their publication," said Mr. Aswell's statement, "he presents a humiliating and pathetic spectacle as he plays cheap politics to gain notoriety."

Both the White House and Governor Parker declined to make any statements in advance of the conference, but it was learned on reliable authority that the southern states believe the Ku Klux Klan has gained control of civil affairs in certain counties of the state and deserves the assistance of the federal government in combating what he regards as a menace to his commonwealth.

There were indications today that the federal government, alarmed at the strength revealed by the secret organization in the last election, is preparing to combat it.

FATALITY ON WHITE HORSE PIKE

Camden, N. J., Nov. 21.—John Hoskins, aged 32, of Haddonfield, H. J., was instantly killed and one man and two women with whom he was riding were seriously injured when Hoskins ran into an open excavation on the White Horse Pike today.

AGED PHILIPSBURG WOMAN DIES AFTER BEING HIT BY AUTO

Mrs. E. C. Howe Was
Mother of First Child
Born at Houtzdale and
Was Widely Known.

ON WAY TO STORE

Mrs. E. C. Howe, one of Philipsburg's most highly respected residents, died at her home at 8:45 o'clock Monday morning as the result of being struck by an automobile Saturday evening while crossing the street on a shopping trip Saturday afternoon.

Mrs. Howe, whose maiden name was Annie Laughlin, was born in Kings county, Ireland, on April 10, 1846. She came to this country when about seven years of age. Her parents were William and Margaret Laughlin. The family lived at Bald Eagle. On Feb. 17, 1894, the deceased was united in marriage to Ellis C. Howe, of Philipsburg, the ceremony taking place at Tyrone. They went to house-keeping at once on Front street, opposite the Methodist church. Later they located at Brishin, and then in the summer of 1898 took up their residence at Houtzdale. Their baby born in Houtzdale. He was killed in a mine accident at Paradise No. 2 mine, near here, a number of years ago. The Howes family returned to Philipsburg and moved away several times before finally permanently locating here, which was in 1890. They had in the meantime lived at Frugality, New Washington and Houtzdale.

Six children were born to the couple: Loretta A., wife of John Kern, of Pittsburg; Mary M., wife of Frank Test, Philipsburg; William deceased; Francis P., at home; Miss Edna Ely, deceased, and Harry R., of Avalon One brother, William Laughlin, lives at Elmhurst; one sister, Mrs. Eliza Henderson, is a resident of Ramsey, and another sister, Miss Nora Laughlin, is a resident of Philipsburg. Five brothers and sisters are deceased. There are twelve living grandchildren and four great-grandchildren.

The funeral will be held at 9 o'clock Thursday morning with services conducted by Rev. Stephen McGarvey in the Catholic church at Philipsburg. The body will be taken to Osceola Mills for burial.

NEEDS OF SCHOOLS OF CLEARFIELD IS INTERESTING TOPIC

The meeting of the Clearfield Commercial Club at the Jordan Hotel last evening was one of the most interesting that has been held for some time. After being highly entertained by Miss Dunkle, one of the leading vocalists of State College, Pa., ex-President Sam Warner was introduced—if an introduction was necessary, and told in his own interesting way how he would conduct the Blacker floral plant and ended his talk with a very concrete example of the florists' slogan, "Say it with flowers" by presenting every member a bouquet present with a beautiful carnation. This idea of having some member who knows little about some other member's line of business or the conduct thereof has become a highly interesting part of the regular program of the Club.

Following "Sam's" talk, Prof. Geo. E. Zerfloss, superintendent of Clearfield schools, was introduced and gave his views on the future needs of the Clearfield schools. Although handicapped by a heavy cold, Mr. Zerfloss very forcibly impressed on every person present the crying needs of the city for the better education of Clearfield boys and girls. Mr. Zerfloss also gave some statistics that showed that Clearfield has a wonderful school system as compared with many other cities in the state; but also showed that the "teacher load," i. e., the number of pupils per teacher, was entirely too high for efficient work.

Through reports which have been issued by state school journals, Mr. Zerfloss showed that over 50 per cent. of the boys and girls that started school in the first grades have been graduated from our high school thru the efficiency of the present system and made a very earnest plea that the good work go on to the point where a still greater percentage would be shown. This, he showed, (Continued On Page Two.)

REFUNDING PLANS NOT ACCEPTED BY FOREIGN NATIONS

Washington, D. C., Nov. 21.—America's chances of obtaining relief through refunding operations on the debt owed this country by foreign nations grows dimmer every day. It was learned today that only seven of the twenty nations owing the United States have made any overtures looking to the refunding of their debts. These are England, France, Belgium, Hugo-Slavia, Roumania, Italy and Poland.

MOTHER LOCKS TWO CHILDREN IN ROOM; BOTH DIE IN FIRE

Monongahela City, Pa., Nov. 21.—Two children burned to death yesterday in their home here while their mother was out shopping. The total, both boys, aged sixteen months and four years, were locked in the room during the absence of the mother and were unable to make their escape.

AUTO HEADLIGHTS REVEALED MURDER OF JERSEY COUPLE

Summerville, N. J., Nov. 21.—The state is rolling up a tremendous and imposing mass of evidence against the woman in gray and the male accomplice who is alleged to have been her companion on the night of the double killing of Rev. Edwin Hall and Mrs. Elmer Mills.

Resumption of the Grand Jury work today was spurred by the bringing to light of a new witness in the person of George Temple, a hog farmer, who is said to be able to identify the slayers by the glare of the headlights on a car he was driving which threw into bold relief the scene of the tragedy and enabled Mrs. James Gibson to see what she claims she saw.

The evidence thus far has been simply for the purpose of laying the ground work to satisfy the technicalities of the law and it is believed that the Grand Jury will adjourn from Wednesday until Monday at which time the evidence of Mrs. Gibson and other material witnesses will be offered.

Several important witnesses for the state are said by officers in close touch with the situation to have disappeared and a fear is expressed that they have slipped out of the state. State police and county authorities have been detailed to try to find them. The names of those who are said to have disappeared cannot be learned.

COUNCIL WASHES ITS HANDS OF ALL RESPONSIBILITY IN CONNECTION WITH MAHAFFEY ACCIDENT ON SECOND ST.

IRISH BAND WILL VISIT HERE NEXT FRIDAY EVENING

The first tour of the United States of the internationally famous Irish Regiment Band, aptly described as "a traveling festival of Irish music," will include Clearfield in its itinerary, appearing here at the Driggs Theater on Friday, November 24th.

This celebrated band, the only musical organization exclusively Celtic in the United States, will have besides a complement of seventy-five members of the band, a special group of soloists, which will include an Irish singer, an Irish folk-dancer and a piper, the latter the famous Pipe-major John Trenholme.

The tour was conceived by Roger de Bruyn, of New York, manager of noted musical artists and organizations, and the engagement here will establish a precedent for the band, which never before has officially visited this country.

The band is one of the best known military-musical organizations of its kind, and has been frequently heard in Canada under the baton of Lieut. J. Andrew Wiggins. Most of the musicians are veterans of the war and while in England in 1918 gave London concert which attracted much attention. The band has the indorsement of the Irish League of America, of the Knights of Columbus, the Friendly Sons of St. Patrick and other societies with large Irish memberships.

The response of the Irish organizations is indicative of a strong revival of interest in Irish music, similar to the movement which has been manifest in Ireland for some years past. The band will carry with it three soloists—a singer, a piper and a dancer—all specialists in Irish folk music and dancing, the oldest probably of any purely national music in all Europe. The tour will provide an opportunity for American audiences to hear a great number of folk tunes which have seldom, if ever, been played or sung here before. Pipe-major John Trenholme, who is an expert performer on the Irish bagpipes, is to give forth tunes which have never been written down because of local peculiarities, which cannot be recorded by existing methods of notation. These tunes the traditional Irish fiddlers and pipers have preserved since the earliest historic times in Ireland, handing them down from generation to generation.

FLAG POLE REMOVED

The regular semi-monthly meeting of Borough Council held at the Council chamber last evening was attended by but seven of the twenty members and but little business was transacted. President Bower presided.

The matter of the assessment of Orr Run sanitary sewer was called to the attention of Council by Engineer Kess and same was discussed by Solicitor Urey, who urged that some consideration be given the request of the property owners for hearing and some relief before the assessment was finally made. The question was referred to the Sewer Committee for report at next meeting with recommendation.

Wash Hands of Auto Accident
Chairman Beahan of Police Committee stated that his committee had met the Chief of Police relative to having an information made to the Mahaffey case but the committee was unanimous in deciding that action in this case was not for Council but for the County authorities. When the facts of the Mahaffey case were presented to the Police had been laid. After some discussion the report of the committee was unanimously adopted and the incident closed so far as the borough authorities are concerned.

Will Remove Flag Pole
The big steel flag pole at the Court house square was the subject of considerable discussion. Many complaints have been received by Council concerning same and asking that it be removed. Council finally decided by unanimous vote to have the pole removed and a multi-story traffic light installed similar to that at the corner of Third and Market streets.

The question of adequate street lighting at this point was taken up and chairman Ellis of the Public Property Committee suggested that pedestal lights be placed at each of the four corners the angle as had been proposed by the property owners at Third and Market. Under the plan proposed when the street was being repaved was for the property owners benefited to provide the installation and the Borough to supply the light. The property owners got "cold feet" and failed to go through with it, but Chairman Ellis was asked to take the matter up with the property owners at the "disposal" and ask them to go along on a similar proposition. This failing the old are light will be restored.

Request was made for lights at 11th and 12th streets and Woodland Road and for a guard rail at Sanitarv Run. The requests were referred to Property Committee.

HENRY'S HENRY AND WALT'S HENRY TRUCK AMBLE INTO COURT

W. Elbridge Brown, Esq., entered suit in Prothonotary Balausta office today on behalf of Henry F. Van Valzab, who seeks to recover \$40.72 from W. H. Fargo, for damages sustained by Henry's Henry when it dispossessed the right of way with Walt's Henry at the Second street bridge on September 26, 1922.

In the statement filed Henry says his Henry which is a touring car, was ambling peacefully along under the direction of Bellman Hales, when up came Walt's Henry, which is a truck. Because Walt's Henry was bigger and stronger than Henry's Henry it rolled along on the wrong side of the road, Henry says, and when Henry's Henry meekly attempted to get by Walt's Henry gleefully bumped right into Henry's Henry and the resultant crash caused Henry to expend \$40.72 for repairs to his Henry before it could be induced to venture out in public again.

Will Furnish Headstone Without Charge For The Unmarked Graves Of All Veterans Of U. S. Wars

The Veterans of Foreign Wars, through Commander A. D. Nelson of Hayes Wilson, Post, No. 974, of Clearfield, wish it generally known that headstones for the unmarked graves of deceased U. S. soldiers, sailors, Marines of any war, together with attaches of the Red Cross, Y. M. C. A., Knights of Columbus or Jewish Welfare Board will be supplied free of charge upon proper application to the Quartermaster General of the U. S. Army.

In order to assist in securing these headstones wherever required the Veterans of Foreign Wars have taken the matter up and will have suitable headstones provided for the graves of all ex-soldiers of any war upon the need for same being communicated to them.

master General, U. S. Army, headstones will be furnished for unmarked graves of soldiers, sailors, and marines who served in the Army or Navy of the United States during any war or insurrection (including the Revolution), whether regular or volunteer, and whether they died in the service or since their muster out or discharge therefrom. Headstones will be furnished also for the unmarked graves of Army Nurses who had regular or volunteer commissions as such.

"These headstones are of best American white marble, 39 inches long, 12 inches wide, and 4 inches thick, the top slightly rounded, and the portion of the stone which will be above ground when set is sand-rubbed; each headstone is inscribed with the name, rank (if above private) company, and State regiment, or other organization, to which the deceased belonged, cut in relief, within a sunken shield. No deviation can be made from these specifications, which are prescribed by the Secretary of War, and the law does not

provide for any expenditure for fences or for any other purpose except for the headstone as above described."

Any person interested in this matter should communicate with Commander A. D. Nelson, 323 Fourth street.

NEEDS OF SCHOOLS

(Continued From Page One)

could be done by lowering the "teacher load" and by thus allowing the teacher more personal work with each pupil.

Another of the crying needs of the city is more room for pupils. The records show that the increase in the amount of room for Clearfield school pupils has been far behind the increase in population and that if the city increases in population in the future as it has in the past ten years, there will have to be a drastic building plan inaugurated within a few years.

Mr. Zerfoss also showed that the schools were being operated more efficiently and economically at present than they were in 1912, even in the face of a very great advance in the price of every commodity that goes into the operation of the schools and in the face of the state law compelling the Board of Education to pay teachers salaries almost double that were paid at that time.

It was not only an entertaining talk but gave every one who heard it much food for solid thought about the future educational needs of the city.

Last evening was election night for the new board of directors and Messrs. Philip Reed, Harry Evans Randall Brubaker and W. Elbridge Brown were selected to aid the four hold-over directors in steering the good ship "Commerce" during the coming year.

ODDS AND ENDS AND THINGS

By J. D. C.

"Large data from little acorns grow," or the interesting tale of how a resourceful Indiana County backwoods lumberman, solved the problem that made possible the turbine engine of today:

The Locomotive, a magazine devoted to power plant production, published by the Hartford Steam Boiler Inspection and Insurance Co., of Hartford, Conn., in its October issue, publishes an article on the early development of the water turbine, in which it pays a high tribute to John M. McCormick, of near Georgeville, Indiana county. The article says in part:

Probably the greatest achievement of any one man in advancing the development of the hydraulic turbine was that of John B. McCormick, of Indiana county, Pennsylvania. He had a sawmill on a small stream, and could run only a pondful at a time. The wheel was too large and used water so rapidly that it drew down the pond quickly and so curtailed operations. As in many other old sawmill wheels there was no satisfactory way of reducing the quantity of water used. Like most early turbines and those of the present day as well, the water passages through the runners or buckets, as they are called, were narrower at the outlet than at the inlet to the wheel. McCormick conceived the idea that by still further extending the buckets he would make the outlets still narrower, thus choking the discharge, reducing the quantity of water used and conserving the pondage. To accomplish this he riveted sheet iron extensions on to the outlets of the buckets, keeping the same form as the original passages, but making them longer, narrower and more curved. To his great surprise and gratification he found that not only was quantity of water used reduced, but that in spite of using less, the power of the wheel was considerably increased. This led him to further experiments.

About 1870 McCormick found that by extending the bucket vanes of an inward flow turbine downward and outward, making them ladle or spoon shaped, he was able greatly to increase the outlet openings of a turbine of a given diameter. At the same time the length or depth of the inlet openings was proportionately increased, thus greatly increasing the capacity without increasing the diameter of the runner. Since the speed of the turbine decreases as the diameter increases, he thus produced a turbine of much greater capacity without reducing the speed. It was also found that the use of a curved vane providing for downward and outward flow, as well as inward flow, through the runner increased the efficiency since the water left the wheel in a direction opposite to that of the motion of the runner and so dropped away from the runner with little absolute velocity.

Not being able to analyze his intricate problem mathematically McCormick depended upon his aptitude for mechanics, his keen observation and a sense of the action of the water in passing through the wheel. He worked on his wooden patterns with his own hands, making them express the results of his latest observation on trials of his wheels at the testing flume in Holyoke, or their performance in service. By trial and modification he steadily advanced the efficiency of his turbines. His work was almost revolutionary. He laid the foundation for the great advances of recent years.

BIRTHDAY PARTY

The home of Mr. and Mrs. James Leasure of 307 Turnpike avenue, was the scene of a very happy gathering yesterday, when about fifty relatives and friends dropped in to help Miss Eliza Fletcher celebrate her 87th birthday. Miss Fletcher was born in Bedford county and for many years has made her home with Mr. and Mrs. Leasure, coming with them when they moved here from Bedford county. Miss Fletcher is 87 years young, she being very active in the home. A sumptuous dinner was served from 12:30 to 2:30. The table was literally groaning under its burden of good things but was greatly relieved in a very short time. All by their prolonged stay at the table, pronounced it a wonderful feast, except one Mann who seemingly hadn't much of an appetite, although he had fairly well.

Truly it was great to be there.

GIRL NOW WELL AND STRONG

Daughter Took Lydia E. Pinkham's Vegetable Compound as Mother Advised

Wauseon, Ohio.—"My daughter always had backache and leg-ache at certain periods and could not be on her feet at those times. We read about Lydia E. Pinkham's Vegetable Compound doing girls so much good so she began to take it. That is two years ago and she is a different girl since then able to do any work she wants to do—although she is still careful not to do heavy work—and so well and strong. We recommend Lydia E. Pinkham's Vegetable Compound to all mothers with ailing daughters, and I give you permission to publish this letter as a testimonial."—Mrs. A. M. BURKHOLDER, Route No. 2, Box 1, Wauseon, Ohio.

Something out of balance will affect the finest clock, causing it to gain or lose. The proper adjustment made, all is well. So it is with women. Some trouble may upset you completely.

Lydia E. Pinkham's Vegetable Compound will correct the cause of the trouble and disappearable symptoms will disappear as they did in the case of Mrs. Burkholder's daughter.

Ship Subsidy. Here is a name that will be in the headlines of all newspapers for the next six months and without making any attempt to understand what it means most of us are going to line up for or against it, according to the newspapers we read. While Democratic papers, because it is an administration measure, pan the idea, branding it nothing less than a handing over to private ship companies of millions of dollars, and other newspapers leaning to stand-pat Republicanism blindly support it because it is a Harding measure, a very few have gone into the proposition so as to understand it.

Here, according to Edward C. Lawry, an able writer of the Public Ledger, is the motive impelling President Harding to put forward the subsidy plan. It is a commanding argument, to say the least:

"The United States owns 1500 ships. Of these, 1100 are rotting in idleness and 400 are being operated by the Shipping Board at a present annual loss of about \$50,000,000. That is what the ships are now costing the taxpayers. This sum may be reduced. The estimated first-year cost of the subsidy will be about \$15,000,000, and it will run up to about \$30,000,000 a year if the proposal is a complete success. If the subsidy is a success, it will increase the value and sale price of the ships which the government will turn over to private shipping firms.

"Even if the government, as a national policy, does not care to foster and stimulate a merchant marine, it can, as a cold-blooded, practical business proposition, liquidate and get out of the shipping business more cheaply and more economically by this subsidy plan than in any other way.

"There in barest, skeleton outline is the situation as Mr. Harding has been brought to see it. That is the proposal that he must 'sell' to Congress and the country. The government wants to get out of the shipping business and save as much as possible of the present loss of the fifty millions a year. Shall we simply drop the whole thing and sell out for fifteen cents on the dollar or shall we try this subsidy plan? Is there any other alternative?

"Mr. Harding puts the question to Congress and the country. It is for us to decide. Mr. Harding says the situation will not wait. The government cannot build new ships and those in use are deteriorating. Every year one huge investment decreases in value and makes it increasingly difficult for the government to get out on any terms. Our plight has been compared to that of a dealer in automobiles with nothing to sell but 1918 models.

"The question to be brushed out is whether we want a merchant marine on any terms. It is put to the country as a business proposition and not as a matter of national political policy. What is sought now is national discussion prior to Congressional decision. Mr. Harding will open the debate when he meets Congress."

Professor Commons of somewhere in Wisconsin is said to have been given the job by Senator LaFollette, leader of the independent wing of the Wisconsin legislature, of drawing up an unemployment insurance act which will be passed at the next session in that state. The purpose and intent is to administer it in much the same fashion as compensation insurance in this state, by a levy on the employers of the state in annual premiums. Accident insurance is not a hardship. The cost is divided and the greatest losses are recorded when employment is at its peak and those who pay the premiums are best able to meet their payments.

How foolish it is to apply an academic theory to unemployment. Unemployment insurance would hit hardest when employers have no employment to offer and are doing no business. Many a small employer would be driven to the wall by such a piece of legislation. And every dollar paid out in unemployment insurance premiums would in turn be added to the product to be sold and extracted from the pocket of the recipient. Unemployment insurance would be a grand thing, so would an unlimited supply of paper currency, until the bubble would burst.

Yesterday, Sam Rich, about whom we know nothing except that he signs himself King Kleagle of the Pennsylvania Ku Klux Klan, addressed The Progress and, of course, all other newspapers asking for publicity. Mr. Rich's organization has been getting a fairly good lot of publicity lately, but not of a favorable variety, and to change this he has employed

an experienced newspaper man who will be expected to dress up the Klan news in a tasty column.

The Ku Klux Klan, whether it be in Pennsylvania or in some other state, must put itself of certain features before it will merit that support and consideration which Mr. Rich craves. Preaching Americanism of a virile brand it begins its work by what appears to us to be an un-American method; that of masking its members. There is no question that many of the acts charged to the Klan have been committed by mobs disguised as Klansmen but the Klan itself is responsible for laying itself open to suspicion.

To begin, the Pennsylvania Klan must disavow those hatreds with which it is generally given credit, namely, persecution of negroes, Catholics and Jews.

This is America, the haven and home of all freedom-loving peoples, and the true American will uphold the rights of any and all creeds, races, sects and colors.

The Klan must win commendation, not force it under cover of darkness and the lash in the hands of a masked night rider.

Tomorrow The Progress expects to publish the complete election returns for the whole county by districts. It makes very interesting reading. It shows where there were axes to grind and saws to sharpen. Political elections are peculiar institutions. There is still too much control by the little district leader who has a vast pocketful of votes to deliver. Only one thing will overcome this and that is a larger percentage of the citizens voting. Make up your mind to vote next time.

CIVIL WAR VETERAN ANSWERS LAST ROLL CALL

James Starn, a respected resident of the Third Ward and veteran of the civil war, passed away at his home on West Third Avenue about 8:30 o'clock Sunday morning, November 19th, after a protracted illness resulting from a complication of diseases, in the 77th year of his age.

The deceased was born at Lock Haven, Pa., Feb. 26th, 1846. On February 20th, 1864 he enlisted in Co. E, of the Seventh Pennsylvania Vol. Cavalry, and served until the close of the war. He participated in many skirmishes his regiment figuring in Williams raid from Eastport, Miss., to Macon, Ga.

James Starn was an honorable, upright, patriotic citizen, who enjoyed a wide acquaintance throughout this section and was generally respected.

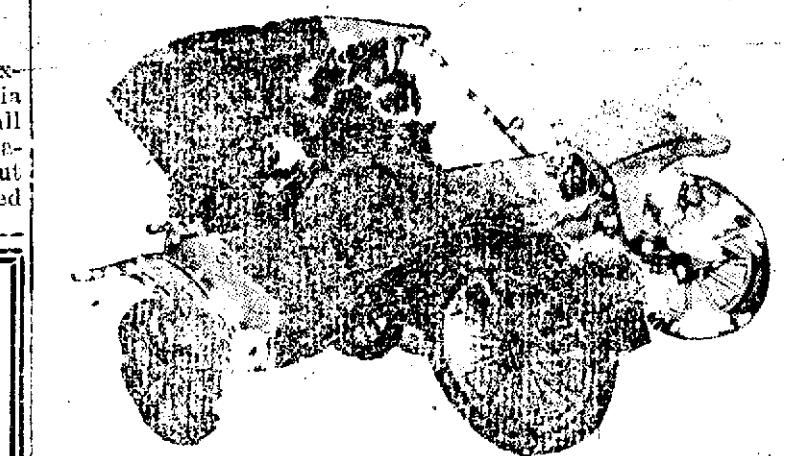

In 1869 he was united in marriage with Margaret J. Price at Kyrthwa and about all of their married life has been spent in Clearfield county.

Eight children were born to them, one son dying in infancy, and one daughter, Rosie Mays, wife of George Mays.

Funeral services will be held at 2:30 o'clock, Rev. Armstrong of the West Side Methodist church officiating. Interment will be made in Hillcrest cemetery.

James Starn was an honorable, upright, patriotic citizen, who enjoyed a wide acquaintance throughout this section and was generally respected.

ANCIENT HUPP ON EXHIBITION ON THE STREETS OF THIS CITY

One of the most interesting cars that is now seen on the streets of Clearfield is this ancient Hupmobile. Away back in 1908 the Hupp Motor Corporation started to build automobiles and this model "20" was the first produced. This particular car has been in constant use for over twelve years. The average man naturally takes the present development of automobiles as a matter of course.

Don steps to think of all the thought and care which has been necessary in bringing automobiles to their present high standard. Such things as electric headlights, self starters, windshields and doors were absolutely unknown not very long ago. The motorist of today finds his car fully equipped, even down to the little luxury of cigar lighters and such incidentals. He drives thousands of miles winter and summer and is independent of train schedules. In the old days his ambition was to drive 20 or 30 miles with some assurance that he would not have to walk back. Among those cars which had a name for absolute dependability even as far back as 1908, the Hupmobile has always stood to the forefront. This little car is an example of correct engineering and proper workmanship which has stood the test for many years.

It is interesting to know that the 1923 model built by the Hupp Motor Car Company is in every respect just a development of the first Hupmobile made. Throughout all of the intervening years between the production of this first car up to the present date the Hupmobile has not only carried a reputation for absolute dependability but as year after year rolled by, it has become a firm established fact as to be a car that the Hupmobile, wherever you find it, whether it be in Europe, Asia, Africa, Australia or right here in America has a standing among motorists not equalled by any other car in the world.

BEAUTIFUL CARVING SETS

We have some beautiful Carving Sets for you to use when you sit down to carve that bird on Thanksgiving. We have them in a variety of styles and we want you to come in and look at them. They are made in such a way that the handles fit the hand and the blades are of highly tempered steel that will hold an edge. Then, we have steels included so that if you run into a bone and turn the edge while you're carving, you can put an edge right on. They're priced very moderately, too.

Joint Recital By HELEN DAVIS and VICTOR YOUNG

This is a golden opportunity for Clearfield to hear the famous mezzo-soprano and the popular composer-pianist.

The appearance of these favorite artists here makes it possible to perform an interesting musical experiment. In some of the numbers, they will compare their art with its RE-CREATION by Mr. Edison's new phonograph.

Next Thursday—November 23rd.

Poor old Uncle Jeremiah, he certainly had his share of eyeglass troubles. Rather early in life his eyesight showed signs of failing. From awkwardly peering over reading glasses he took to fumbling with two pairs, and from two pairs he changed to ordinary bifocals with the conspicuous lines and humps across their lens surfaces. At each change Uncle became more discouraged.

One day somebody told him about Kryptok Glasses. Perhaps he doesn't enjoy life now!

Years younger in appearance, with a smile replacing his usual scowl, Uncle Jeremiah enjoys all the comforts and conveniences of youthful eyesight. Come in and let us tell you more about Uncle Jeremiah and Kryptok Glasses. We will appreciate an opportunity to be of service to you.

MAN STRUCK BY AUTOMOBILE DIED EARLY THIS MORNING

Alexander Beer, the man who was struck by an automobile Sunday evening while walking along the road on South Brady street, died this morning at 2 o'clock at the DuBois hospital.

No trace has been found as to the identity of the driver of the car that struck Mr. Beer. Steps are being taken to organize a systematic search for this individual, but owing to the fact that practically all that is known is that he drove a Ford roadster, it may be impossible to secure any trace of him.

MAY FINISH SABULA ROAD BY EVENING

The prospects for finishing the improved road between Narrows Creek and Sabula are very promising at the present time, and if the weather is at all suitable today, the two stretches will be connected by this evening.

There remain a total of 500 feet of road to be finished and Matthews Brothers, who have the concrete, are confident that this stretch can be poured by tonight or by Wednesday noon at the latest. Of course this is contingent on good weather, but regardless of whether or not it is the best weather possible every effort will be made to get the work finished this fall.

Many intelligent mothers overlook these few simple facts about food—

EVERY mother interested in her children's welfare meets a problem in the proper feeding of her boys and girls.

Parents often do not realize the evil effects of mal-nutrition; and that care in the selection of food will avoid a large percentage of children's ills.

One of the best of all foods for providing proper nourishment for growing boys and girls is Grape-Nuts—made of whole wheat flour and malted barley, and scientifically baked for twenty hours.

This long baking brings out a delicious flavor, makes the food easy to digest—without fermentation. Grape-Nuts with milk or cream is a complete food.

METHODIST REVIVAL MEETING

Is on at Trinity church. Last night's meeting began, as advertised in the Progress, with a stirring song service, led by Prof. Jones, who has already made many friends both in and out of the church. It is conceded that he knows what to do and how to get the people to aid him in doing it. He leads to singing and simply makes you sing; he has the points in directing the service. Then he himself can sing, and he did it finely in the solo of last night. Folks are coming to hear him, and that is what is encouraging.

The sermon was an exposition of Hebrews 2:3, "But we see Jesus who was made for a little (time) lower than the angels," etc. and then came the altar service, with exhortation and praying, the people responding nicely. It is evident that the spirit of revival is among Trinity people, that are attending the meetings. Rev. L. S. Snell, of the Baptist church participated in the service, pronouncing the benediction.

Tonight, another service of song, which is strongly planned and will be carefully worked out. Then Brother John Buchanan will direct a laymen's period. This is an innovation. The public is invited. Let the people of Clearfield turn out to share in these meetings, contributing their part in prayer and faith and taking away their own blessing. Go to Trinity church, South Second street.

RESPECTED KARTHAUS CITIZEN DIES

A host of friends attended the funeral services on Sunday the 19th inst. in the Lutheran church, Oak Hill, Karthaus township to pay their last tributes of respect to the late Huston Heichel, who departed this life on the 16th. His remains were laid to rest in the cemetery adjoining the church. He was born in Sachsen-Meiningen, Germany, on Jan. 4th, 1831. He arrived at the age of 91 years, 10 months, 12 days.

When a young man he came to this country and enlisted in the Civil War and fought in many battles. When discharged after serving throughout the entire war, he came home and married Miss Caroline Schaffer. To this happy union eight children were born, three preceded him to glory.

His widow, five children, twenty-nine grand children and one great grand child survive the loss of a loving husband and father.

He was a good and obliging neighbor, highly respected and honored by all who knew him.

He was a charter member of the local Lutheran church. The services were conducted by his former pastor, Rev. Franklin Gilbert now of Crapo, Dorchester Co. Md.

BETTER THAN CALOMEL

Thousands Have Discovered Dr. Edwards' Olive Tablets are a Harmless Substitute

Dr. Edwards' Olive Tablets—the substitute for calomel—are a mild but sure laxative, and their effect on the liver is almost instantaneous. These little olive-colored tablets are the result of Dr. Edwards' determination not to treat liver and bowel complaints with calomel. The pleasant little tablets do the good that calomel does, but have no bad after effects. They don't injure the teeth like strong liquids or calomel. They take hold of the trouble and quickly correct it. Why cure the liver at the expense of the teeth? Calomel sometimes plays havoc with the gums. So do strong liquids. It is best not to take calomel. Let Dr. Edwards' Olive Tablets take its place.

Headaches, "dullness" and that lazy feeling come from constipation and a disordered liver. Take Dr. Edwards' Olive Tablets when you feel "lousy" and "heavy." They "clear" clouded brain and "perk up" the spirits. 16c and 50c.

CHILDREN'S AID TO DISCUSS PLACING TOTS IN HOMES

Harrisburg, Pa., Nov. 21. (U. P.)—County representatives of the Children's Aid Society of Pennsylvania met here in conference today with officials of the State Department of Public Welfare in an endeavor to extend their co-ordination in child-caring activities.

In the past the Aid Society has co-operated in every way feasible with the Department and the conference today was called to take further steps in combining effort and avoiding duplication.

The principal question discussed was the problem of placing orphaned children in homes rather than in institutions. Speakers addressing the meeting declared that the home placement method not only assured the child a better environment, but that it was considerably cheaper.

The experience in Bradford county was pointed to as an illustration. A professional worker paid in part by the Children's Aid and in part by the county was given charge of the problem in that county in July. According to a report on the work presented to the conference today the number of children in the county home was reduced from 50 to 20 in less than four months by efficient placements. This resulted in a saving to the county of \$57 a week, it was said, or nearly twice the expense of keeping the placement officer.

One of the results of the conference today, it was expected, will be a combined effort of the Aid Society and the Department to extend the placement system of child caring in other counties.

COMPLETE TASK OF GATHERING SOLDIER DEAD IN FRANCE

By WEBB MILLER
(United Press Staff Correspondent)
Paris, Nov. 20. (United Press.)—The reverent task of gathering the bodies of 35,000 American soldiers into the six permanent cemeteries where they will rest forever is completed.

Colonel Harry F. Rethers, chief of the Army Graves Registration Service, who superintended the work is leaving shortly for Washington to make a final report to the War Department. The personnel of the graves service is being disbanded, except for a few permanent caretakers at the cemeteries.

Since the armistice thousands of bodies have been taken up and transported to the home towns of their relatives. The last body was shipped some time ago and at the express wish of the relatives the remaining bodies will rest in France.

There remains only the final beautification work such as landscape gardening, planting of trees and erection of permanent stone head pieces.

An association of relatives of the war dead is taking contributions with a view to making the cemetery at Belleau Wood one of the most beautiful in France and purchasing additional land on the brow of the hill overlooking the valley, where hundreds of marines fell during the battle of Belleau Woods.

Mr. and Mrs. William Craft of South Fourth street, left today for Sharon, Pa., where they were called to attend the funeral of a nephew Harold Craft, the 19 years old son of Samuel Craft, who was accidentally killed yesterday.

CURWENSVILLE

John Patton and wife, of Westgrove, arrived in Curwensville yesterday and will be guests in the home of Mr. and Mrs. C. S. Russell for a few days.

Mr. and Mrs. Harvey P. Fullerton are well pleased over the advent of a son which arrived at their home on Bloomington avenue last Friday morning.

Messrs. Leib, Hipps, Olson and Norris motored to Grove City last Friday in order to witness a football game on Saturday.

Mrs. Joseph P. Robinson and daughter Miss Ruth, who spent several weeks in Pittsburgh at the home of William Robinson, have returned to their Curwensville home for the winter.

Illini tribe of Red Men have sent out cards announcing the fact that it will proceed to rededicate their new home in the Fullerton block Wednesday evening. Every member of that organization is asked to be present on this occasion as there will be some big doing; and before the lodge members will be allowed to depart for their various wigwams, refreshments will be served from a menu pleasing to the appetite.

The Progress representative was in receipt of a letter yesterday in which complaint was made in allowing the streets to remain in such a filthy condition at this season of the year. Other complaints were also specified, but as the writer neglected to sign his or her name we refrain from publishing the letter.

There has been considerable discussion within the few weeks past as to whether borough council had the lawful right within themselves to appoint a man to fill a vacancy on the board. The writer has gone to the trouble to look the matter up, and finds that the law in borough code of law passed in the year 1915, empowers a board of councilmen to appoint to fill a vacancy made by resignation or death of a former member, his term of service to continue until the following election. Therefore the Curwensville board of councilmen were perfectly within the law when at their regular meeting Mr. Edwards was elected to fill the post made vacant by the resignation of Jos. P. Fullerton, and who will take the oath of office at the meeting of the first Monday of December.

Take Salts to Flush Kidneys

Get less meat if you feel Back-
ache or have Bladder
trouble.

Too much meat may form uric acid, which excites and overworks the kidneys in their efforts to filter it from the system. By eating less meat the kidneys are relieved, the bowels, removing all the acids, waste and poisons, else they may feel a dull misery in the kidney region, sharp pains in the back or side, headache, dizziness, the stomach, tongue is coated, and when the weather is bad they have rheumatic twinges. The urine is cloudy, full of sediment; the channels often get irritated, obliging us to get up two or three times during the night.

To help neutralize these irritating acids and flush off the body's uric waste get about four ounces of Jad Salts from any grocery; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys may then not find and bladder troubles disappear. This famous salt is made from the acid of grapes and lemon juice, combined with lithium and has been used for generations to help clean and stimulate sluggish kidneys and stop bladder irritation. Jad Salts is inexpensive, harmless and makes a delightful effervescent lithia water drink which will help men and women stay new and the to help prevent arthritis and bladder disorders.

reason can be advanced for this is that a goodly number of the population was out of town, the day being a fairly good one for automobiling. But the end is not yet, as we are informed that this matter will be taken up again shortly and another effort made to increase the membership roll to the one thousand mark. If one out of every three residents of this town would subscribe for a card the roll membership would be easily obtained. The sum of \$1.00 is not a great amount for any one to contribute, yet that same dollar might be the means of helping some worthy person in his or her hour of need.

The card party held by the ladies of St. Timothy Catholic church at the Park Hotel last evening was very well patronized, and the receipts therefrom will add greatly to the exchequer of the fund for church improvements. All who were present pronounced themselves well pleased with the entertainment, as well as the delicious refreshments served to them.

The schoolma'ams and school paper as well returned from their mountain outing on Sunday afternoon, having enjoyed the time out at Greenwood to the full extent, as only a happy memory party can. Lots to eat, lots of fun and a whole mountain of pure joy to draw from, ought to put extra pep in the school work for another week at least.

The new concrete road built this summer from the Park House through the river bridge at Irvin Park was thoroughly tested out as to its efficiency yesterday when heavy trucks added with coal moved to and from the route. A week or two of that sort of heavy traffic will surely at the question as to whether it will stand up under it or not.

OYSTERS

The way we are selling our fine Oysters from the best oyster grounds in the world is a great endorsement of the quality of the oysters. They are the sort that folks come in and tell us about and they, one and all, tell us that they get the finest Oysters here that they can get anywhere.

We have the big ones for frying and the smaller ones for stewing. Drop in and take a quart home with you for supper tonight or for lunch tomorrow.

HOW TO KEEP YOUR BABY WELL

A Weekly Talk To Mothers Issued
Through The Babies' Prophylac-
tic Clinic, Henry Phipps Institu-
tion, 7th and Lombard Streets.

BABY'S COACH

The best coach for your baby is one that is at least two feet high. It should have room enough for your baby with the necessary clothing, pillows and covers and a top that can be easily adjusted so that he is well protected from the wind and sun.

Have strong, well balanced springs that stand squarely on four wheels. If your baby sits up, it is well to have a safety strap to fasten about his waist in addition to the ordinary carriage strap.

Carriage outings sometimes are

babby's only possible means of getting fresh air, but rather than send him out with another child or some incompetent person, give him his airing in the yard or on the porch where you yourself can watch him.

STATE NURSERY TO BE STARTED OVER AT ROCKVIEW PEN

Harrisburg, Pa., Nov. 20. (U. P.)—Millions of trees to be planted in all parts of the State will be grown by convicts at the Rockview Penitentiary, it was announced at the Department of Forestry today. The Department has made arrangements with the prison officials for the establishment of a nursery at the institution.

The Store That Puts The "Y" In Home And Makes It "Homey"

We have the furniture in oak, walnut, mahogany, and other finishes for every room in your home. We can supply your kitchen with linoleum, either two or four yards wide, or linoleum rugs, kitchen cabinets that are a joy to the women, and that enameled range that never needs the weekly "shine." To see them is to make you wonder how the women of yesterday ever lived without them.

The Dining Room with a rug that rests the eye, an American Walnut Dining Suite,—buffet, china cabinet, round or square table, and chairs to match—who could resist an invitation to dine amid such surroundings that are a joy to the women, and that enameled range that never needs the weekly "shine." To see them is to make you wonder how the women of yesterday ever lived without them.

For the bedroom we can show you the iron beds in White, and Mahogany Enamel, in Brass, in Walnut, Oak, Mahogany, and other finishes with Dressing Tables, Dressers, Chiffoniers and Chairs to match the finish. We handle the Silk Floss Mattress and Hercules Springs. Equip all your bedrooms with these modern comforts and be assured that all in your home are resting well when sleep-time comes.

Then, look to that Living Room where you entertain your friends. Let us supply you with the latest Over-stuffed Suite, the Davenport Table, Electric Floor Lamp and Luxurious Chairs and Rockers, and the Rugs for this room. You will find it is easy to keep those boys and girls at HOME if you add the "Y" and make it HOMEY. If we don't have what you want we'll get it for you.

Winter or Summer

The new Marmon Phaeton meets the seasons. In winter a comfortable, snug sedan, in summer an open, airy touring car. This is the final achievement in convert-

ibility, and owners everywhere are delighted. Two cars in one for the approximate price of a touring car! This model is today's greatest success—see it at once.

just returned from Pittsburgh. They
were accompanied by the Misses
Julia and Jane Wallace.

Mrs. A. I. McNaull and Mrs. Mon-
tgomery of Bryn Mawr spent Sunday with
friends in town.

Mrs. George Jones, of Osceola, is
the guest of Mrs. George Boser.

Mrs. C. M. Maxwell and Mrs. L. N.
Smith, of Harrisdale, were among
those shopping in our stores today.

Mr. D. R. Woolfidge and Mrs. Don
Woolfidge are expected to arrive
today and will spend a few days with
friends.

Miss Margaret Aldredge attended
the dance at DuBois last evening.

Mr. and Mrs. Frank Holt and
daughter Helen motored to Winburne
and spent Sunday with Mrs. Holt's
mother.

COCONUT BRITTLE; PEANUT BRITTLE

We are now making
these two confections daily
and the folks are coming
in for them just like they
did always when we had
it last season.
